## Add on Panda Shelving Systems

The Panda Shelving Systems can be extended as required by connecting additional units of Roll Posts / Extended back panels to the existing units, side by side or back to back .

The efficient design & versatility of the panda shelving system using add on units enables the systems to be designed & built to suit a diverse range of applications.

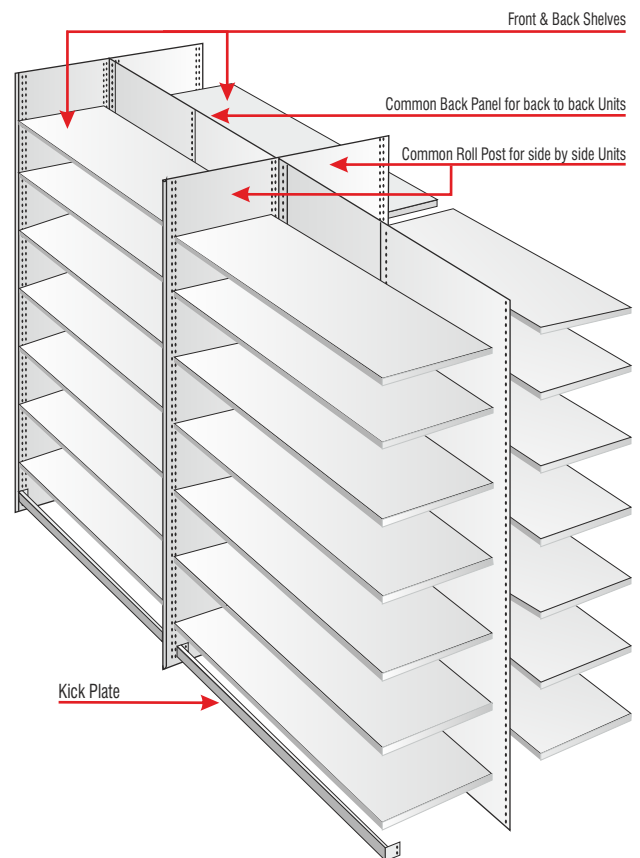

### For example :

- If you want to have 2 units back to back then you need to order a standard unit of the configuration you require and additionally for the back side order only the Roll Posts, Shelves and Kick Plate whereby you save the cost of 1 Back Panel.

- If you want to have 2 units side by side you need to order a standard unit of the configuration you require and additionally for the side unit only order the extended Back Panel and Single Roll Post along with the shelves and Kick Plate whereby you save the cost of 1 Roll Post.

In this way, as more units are added to make a wall side by side, or an aisle having side by side and back to back units, the system becomes more cost effective and a more efficient storage system.
